

# Ignite implementation services

## For Collibra Platform

Collibra's Ignite implementation is designed to deliver value with your Collibra solution quickly, teach you how to configure the system yourself and support adoption throughout your first year on the platform. With this comprehensive implementation service, you'll receive expert guidance, configuration, training and adoption support - all from top Collibra experts.

### Why Ignite

#### Implement your first use case

within 2-3 months

#### Set a strong foundation

via prescriptive, role-based education

#### Drive adoption and embrace change

with capabilities and plans designed for your team

#### Keep the momentum going

by focusing on adoption and innovation with your dedicated team throughout Year 1

**Collibra Professional Services** is dedicated to helping you realize value at every step of your journey. Through our mix of packaged offers, custom consultant services and best-practice coaching – delivered by top industry experts – we can meet the most complex data requirements and help unlock your full potential.

# Your Ignite journey

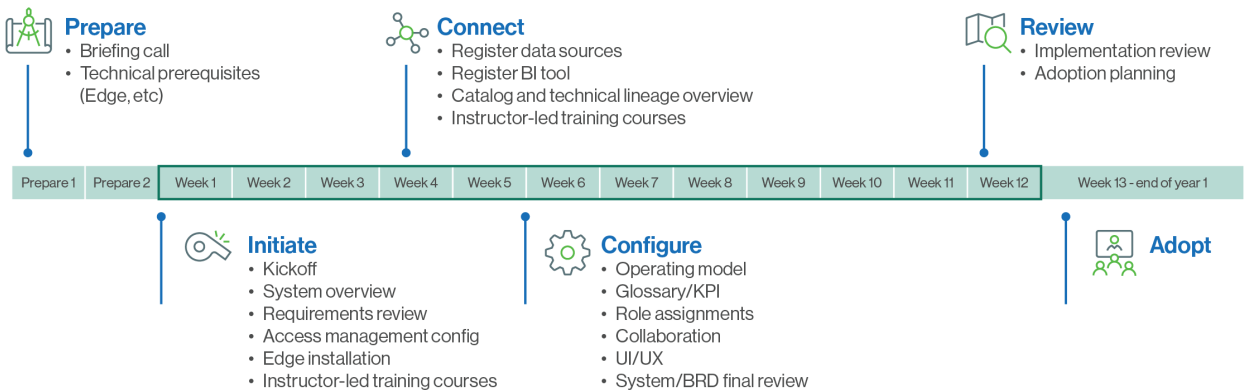

## Implementation overview

The Ignite implementation consists of six distinct phases:

- **Prepare:** Hold a briefing call and complete any technical prerequisites
- **Initiate:** Kick off the project, confirm business requirements, configure access management and install Edge
- **Connect:** Connect the Collibra platform to the data sources and BI tools you will ingest into the catalog, along with an overview of lineage integrations
- **Configure:** Learn how to set up various platform elements to support your organization's policies and business needs
- **Review:** Go live, review your environment and start planning for the future
- **Adopt:** Work with an Enterprise Architect at the frequency you select for your Ignite package to advance your solution after it has been implemented

Before and throughout the implementation process, your Collibra team will support and guide you with calls, pre-work tasks, workshops and education.

### Your Ignite journey: Detailed timeline

## The details

### People

- Collibra team: Solution Architect, Technical Architect, Implementation Manager, Services Manager
- Your team: Platform Administrator / Architect, Data Governance lead, Data Steward, Data Engineer, Project Manager

### Connections and setup

- Connection of 3 metadata integrations from [these supported drivers](#)
- Connection of 1 BI tool technical lineage harvester from any [supported BI connector](#)
- Collibra Edge component
- SSO through a supported method and/or SCIM

### Education

- During implementation: 12 hours of instructor-led training correlated to your implementation activities
- Post-implementation: two Premium Education subscriptions to continue building competency and drive solution value. Includes: unlimited public instructor-led training, exclusive workshops, hands-on practice, and two attempts for all Collibra certification exams. [Learn more here](#)
- Access to [Collibra University](#) for self-paced and role-based learning

## Post-implementation adoption support

After implementation is complete, you will continue to have touchpoints with an Enterprise Architect to ensure that you can execute your adoption plan and adapt the Collibra platform to your needs as they arise. Examples include:

- Co-author the adoption plan for the year, including both periodic and ongoing activities
- Guidance and examples of best practices and successful adoption tools and methods
- Proactive review, assessment and recommendation activities
- Improvements to your Collibra technical design
- Share best practices and coach your team to create autonomy
- Provide hands-on assistance in implementing further use cases
- Provide guidance on newly released Collibra functionality
- Assist with migrating your implementation configuration to your production environment

By combining best-practice implementations, extensive education services and ongoing adoption support, Collibra's Ignite package is designed to bring value quickly and help you grow your platform. Talk with your Collibra team for details.
